NEW YORK Sept. 3.--Mrs. Fritz Arbes, who lived with her daughter, Mrs. Cathacine Zadick, at No. 311 East Filtieth street, died in terrible agony yesterday afternoon, after having drank in quarter of an omice of medicine put up by Druggist Albert Kirchmau. Dr. Lesser, of East Fifteeuth street, who had been called in to treat the infant child of Mrs. Zadick for gastrie trouble, prescribed a minimum dose of a preparation, the major portion of which was aconite. The medicine was put up in a bottle bearing a German label.

Mrs. Arbes, who was also unwell, concluded to try the medicine. This she olid with the above result. Mrs. Zadick, too, tasted the drug. Dr. S. State Board of Arbitration Begln Their Work.

MR. WEBB THE FIRST WITNESS.

He Testifies How He Came to Discharge the Knights of Labor-Only One Wilness for the Railroad-Examination of the Discharged Men Begun.

NEW YORK, Sept. 3.—The state board of arbitration begun 4ts investigation here yesterday as to the difficulties existing between the New York Central railroad and the Knights of Labor. The first of the parties interesced to appear was Third Vice President Weed.
Mr. Webb was accompanied by his private secretary and Messrs, Frank Lounis, Hamilton Hames and D. W. Grars, counsel for the road.

It was nearly 10:30 o'clock when the members of the board entered the court room and informed the coansel that they were ready to proceed with the inquiry. Mr. Webb was the first witness ealled. Mr. Webb sach that he was the third vice president of the New York Central and Mindson River railroat. and had charge of the operation of the roak. The compacy had no controversy with its can goves. On the evening of Aug. 8 a large number of the employes left, and their places had been

The alleged cause was that seventyeight members out of 20,000 had been discharged. They were discharged for good cause, but only seven of those men applied to the company for information as to why they were discharged. Subsequently, a gentleman from another state called and wanted to know why the men were discharged. The witness declined to give the reasons. This gentleman was Mr. Holland.

Upou being cross-examined by Gen. Roger Pryor, Mr. Webb said he had nothing to do with the road outside of the transportation and operation departments. Mr. Depew was abroad. The witness had discharged the men on reports from members of the secret service of the company. These reports are not in existence. They conveyed to him the charges and evidence. The charge itself was unsatisfactory service. An engineer named Lee was discharged for unsalisfactory service. The man Lee was ye, y arrogant and insolent, and said he would tie up every wheel be-tween here and Buffalo if he did not get some of the Vanderbilt money. This ended the testimony for the Cen-

William A. Valentine, master work-

man of Assembly No. 10,569 and one of the discharged employes, was the first witness for the knights. The witness received a written communication from the assistant superintendent which stated that his services would not be required after Aug. 4. Then, in a rambling way the witness told how he had been cantioned not to appear foo prominently as a Knight of Labor, as it would interfere with his promotion.

Dennis McCarthy, train baggagemau, testified that he was discharged on July 31. On Aug. 1, he asked Mr. Toucey if his discharge was final. Then Mr. Toucey accused him of being one of the "kickers" and a Knight of Labor.

The witness appealed to Mr. Toncey to remember his twenty years of faithful service, and the latter revoked the discharge, but when witnessed reported for duty afterwards he was ordered to give up his badge and keys by a subor-dinate of Mr. Toncey's, and was then discharged.

E. J. Lee, muster workman of District No. 246, testifies that District No. 246 ordered the strike because the company had violated an agreement with the men in which it was agreed to give the reasons for all discharges. Witness had always performed his duty faithfully and at the time of his discharge was an extra hand and was on leave until he

was ready to report for work.
On Angust 8 Mr. Toncey told the witness that he was an agitator and would not be taken back, but that he would not be blacklisted, and if he could get a situation on the New Haven road he (Toucey) would give him a recommenda-

Charles Malloy, a member of the executive committee of District Assembly No. 246, testified that he was discharged July 29, after eight years employment. He was fold it was because he had lied in order to obtain a pass. The charge was false.

J. J. Holland, of the general executive board, plescribed his visit to Mr. Webb made by order of the executive board to endeavor to adjust the troubles between the rend and its employes

Mr. Toucey had said to him (Holland) that Mr. Webb did not know the temper of the men, and intimated that he was neting too hastily. Witness told Toucey that if Mr. Depew was here he believed that the trouble would have never or-

John W. Devlin, of the general executive borol, de cribed an intervieva with Mr. Concey in which he explained the attitude of the knights toward the road, and gave him to understand that if cause were shown for the discharges made the board would uphold the company. The same ground was gone over the same day with Mr. Webb, who refused to make any concessions. At this intervae Mr. Powdecly, who was present, was strongly impressed with the idea that the company was attacking the organization and requested Mr. Webb the question some of the men discharged. Mr. Webb made no reply.

E. J. Lee, recalled, said he had cabled Mr. Depew at Paris and received no reply. He had made strong efforts to prevent a strike and had a long correspondence with Mr. Powderly. He identified the correspondence. In the first letter, dated Feb. 3, 1890, Mr. Powderly complimented Lee on his skilful management of District Assembly 246 and advised Lee to "feel his"

Under date of April 17 Mr. Powderly regretted to see that the road was picking off so many knights and udvised Lee to do all possible to prevent a strike, which, he said, was what the road wantel. "The order," he wrote, "could not now support a strike; besides, I am informed. Mr. Depew ls

anxions to have the men strike."

On July 30 Lee wrote Powderly that the road was crowding the knights very

the road was crowding the knights very hard, evidently trying to force a strike, traffic being dull. He himself had been discharged, and half of the men were anxious to strike.

Aug. 2 Powderly wrote, regretting the combition of a fairs, saying that if there was to be trouble it would come in Depew's absence. He still advised avoidance of strike at all hazards, as the order could not support it. "Act on the following suggestion," he wrote, "Select from your men such as are good and reliable and scenre places for them in the west. Then have them ast for shorter hoars and higher pay. This the road will not grant. Then have them quit and take the new places secured for them. Do this secretly, and wait until Mr. Depew returns. He is a presidential cambidate, and would not care for a strike on his road." for a strike on his road."

Again under date of Ang. 6, Mr. Powderly says: "It is in duess for the men on the Cencal to strike, they cannot win. ' He calls attention to the fact that 1892 will be a presidential year, and in 1893 the world's fair will be field, and for that reason the road wanted the trouble got out of the way at once. In conclusion he says: "We cannot assist you. Workingmen of this age cannot stand assessments. If the strike is inevitable let the men of the New York Central enter it with their eyes open.

Mr. Powderly was called and related his interview with Ar. Webb, but said nothing new. Pending the strike, he said, he had no interview with mny of

the roud's officials. The board announced that if neither side called Messrs, Voorhees, Bissell, Stevens or Lyons the board would do so to-morrow. Adjoursed.

Tire Philadelphia Times says that Pattison, the Democratic candidate for Governor of Pennsylvania, will be elected by 50,000. No wonder the Republicans of the Keystone State are scared. Quayism is doomed.

THERE are eight persons in jail at Cincinnati awaiting trial for murder. And all these crimes were committed in one month-August. This is an awful record. Cincinnati should not forget that riot a few years ago.

SENATOR SHERMAN has joined the crowd of "Progressive Protectionists," and wants to fix up a little "reciprocity" with our Canadian neighbors. He has given notice that he will offer an amendment to the McKinley hill that will, if adopted, simply result in tearing down some of the tariff walls between the two countries.

SENATOR DAVIS, of Minnesota, is another Republican who has forgotten that to admit that the price of an arlicle is reduced by the removal of the duly on it is to destroy the whole protection argument. He wants binding twine put on the free list so that it will come cheaper to the farmer. With such "talkee talkee" as this, what becomes of the once favorite cry of the Republicans that the tariff isn't a tax? Why isn't it a tax, if a removal of the duty on an article will cheapen the price of it to the consumer? Seuator Davis is not the only Republican who has changed his cry on this point. The fact of the matter is, Republicans are daily admitting that the Democratic view of this vexed question is the correct one. As the Chicago Times remarks, Senator Davis' sound reasons for a removal of the binding twine tax are eqally sound reasons for the removal of the whole list of tariff duties that weigh upon he farmer.

Merit Wins.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great pounterity purely on their merits. J. James Wood, druggist.

At low prices.

That's MINER'S specialty.

Now, what in the world would we be advertising for, if all we had to offer was good shoes at an extra price? You've heard about the crazy man on the tower? He grabhed a stranger and said: "Let's jump down and make ourselves famous." "Pooh!" said the ready-witted stranger, "any man could jump down; let's go down and jump up."

We're not crazy.

Not crazy enough, at least, to think that you'd jump at an offer of shoes from us, when you could do just as well eisewhere. We would not expect to win your trade by selling good shoes at a big price, and we wouldn't waste money advertising that fact. Our specialty is a GOOD shoe at a LOW price.

That's where we stand alone.

The fact we want to "ding" into everybody's mind is that good shoes at MINER'S cost no more than poor shoes, such as MINER don't keep-don't keep them

Doir gs of the Labor Congress at Liverpool.

THE EIGHT HOUR MOVEMENT.

Several Resolutions Reported and Acted On-Financial Aid to Be Extended to the Striking Australian Dockmen. Other Cable Items.

LIVERPOOL, Sept. 3.—At the session of the trade nuions' congress yesterday Mr. Watkin, president of the congress, delivered an address, in which he said he hoped the results of the congress would encourage a great labor revival. Never before in the history of trades unionism had there been such remarkable developments as had recently occurred. The time had undonbtedly arrived to energetically try to secure the working day of eight hours. He did not fear that an eight-hour day would

injure British trade.

He did not think that a bill providing for such a working day should be forced through the house of commons immediately. ately irrespective of the wishes and desires of the industries affected, but there was no reason why an eight-hour day should not be sconce led immediately to those occupations which unmistakably wanted it. He advocated direct representation of labor in parliament, state control of the railways, and a solution of the land question by naturalization.

A resolution was offered by one of the delegates consuring the committee appointed by the last congress for its failure to draft a bill for presentation to the house of commons providing for a legal working day of eight hours, as it had been instructed to do by the congress. The resolution occasioned a stormy debate. A unmber of speakers warmly favored the adoption of the resolution

Mr. Henry Broadburst, a delegate to the congress and member of the house of commons for West Nottingham, defended the action of the committee in not drafting and presenting the bill to the house. The resolution was finally

A meeting of delegates to the trades union congress was held yesterday evening for the spurpose of taking steps to organize a fund for the striking Australian dockmen. Ben Tillett presided. The dockmen themselves, he said, would probably raise \$75,000. committee was appointed to solicit subscriptions from the general body of workmen. It is expected that large sums will thus be realized,

JOURNALISM IN MEXICO.

Old Order of Things Gradually Chang-

ing-Editor Duchos Tatks. NEW YORK, Sept. 8.-Adolfo Duchos. one of the editors of El Universal, of City of Mexico, is in this city, and in m interview with a reportor gave an interesting account of affairs at gresent in the Aztec capital. For five years Mr. Duchos was exiled from Mexico for writing against the government of Presdent Diaz, but matters were straightened out for bim finally and he returned to Mexico to resume his profession. During his exile Mr. Duchos founded two Spanish pupers in Texas—one at Austin, El Spectador, and the other at Eagle Pass. El Comercio.

"We have endeavored in the conduct of our paper," said Mr. Duchos, "to employ some of the American ideas of journalism. Heretofore news, as you understand it here, had no value among Mexican newspapers. The papers were perfectly content to publish the report of a New York occurrence, no matter h w important, a week after it became public. What you call a beat there was unknown with our newspapers and reporters as such had practically no existence. We introduced a direct daily telegraph se vice, engaged reporters and did other things of this character and the result has amply justined the experi-

"But in other thing: besides journalism a change is being wrought in Mex-ico. Chumbling, for instance, which was forme ally licensed, and for which one man held the exclusive privileges in return for a large tax collected by the district government, has been ab dished since Dr. Kannon Fernandez, the new governor of the district, has come into power. During the feasts at Taculaya, Mexico's famo is suburnan resort, where Mexico's fanto is subminan resort, where the biggest gaubling establishment used to be, gambling is allowed, but only during these periods. In some things, however, the government is far behind your people here. For instance, the newspapers are not allowed to print the recount of a grippo backers, they have the recount of a crime before they have the permission of the authorities.

Recently one of our men worked up a case on the plan of the American reporter on his own account, and when the story was published, next day, he was promptly lauded it jail, where he remained a long while. The officials claim that by printing the full story of a crime in advance of the arrest of the culprits, the latter will be emibled to get out of the way. In consequence, a heavy penalty is imposed for a violation of this law.

"It was rumored when I left Mexico that Senor Matias Romero, Mexico's minister at Washington, who is now on leave of absence at none, was to be given the treasury por tolio."
